Museum of Art and Design at Miami Dade College, in partnership with the Women Artists Archive Miami, will present Kabuya Pamela Bowens-Saffo: From the Heights., marking the artist's first-ever solo show.

"Her impact on South Florida's cultural landscape is celebrated in this first-of-its-kind exhibition featuring archival materials presented alongside artwork from the early 80s to the present that is deeply tied to the community," a press release states. "Specializing in printmaking and mixed media constructions, her art delves into social and political human relations, emphasizing the African American experience."
